

**SHAPING FRANCE AS ONE OF THE MOST
COMPETITIVE AND INNOVATIVE HEALTHTECH HUBS**

A FUTURE EUROPEAN LEADER IN HEALTHTECH

Ranked as a leader in terms of access to health care by the OECD, France's health sector has demonstrated its resilience during the Covid crisis.

In order to become a new global hub for health technologies and the first European country for the production of new drugs, France needs to welcome more foreign investor

€90 Bn turnover (French Health Industry Federation)
3rd largest export sector (worth €34 Bn)
€6.7 Bn annual investment in R&D
30,000 public researchers

**A unique social protection system guaranteeing 67M people
an easy access to healthcare and drugs.**

The French universal health insurance covers 76.8% of health expenditures
for people working or living in France
French public expenditures for health care amount to €200Bn

THE SECOND LARGEST PHARMACEUTICAL MARKET IN EUROPE

The world's 5th largest market for drugs for human use

An innovative public-private initiative bringing together key players of the healthcare sector (companies, researchers, professionals, innovation clusters...) to promote their expertise, technologies and activities internationally

€60 bn generated by the French pharmaceutical companies in 2019 (Leem, 2020)
3,100 pharmaceutical companies employing 455,000 people

720 Biotech companies (oncology is their primary therapeutic focus)
886 MedTech and Diagnostic (panorama France Biotech 2019)
60 new biotech companies created every year (Féfis)

Over 22,000 pharmacies
An average of €488 in pharmaceutical spending per capita in France in 2018 (Leem, 2019)

A COLLABORATIVE INNOVATION ECOSYSTEM

4 research centers listed in the Top 25 World's Most Innovative Research Institutions 2019

(Reuters)

Inserm

2nd leading medical research institute in the world (Scimago, 2018)

1st country in Europe in terms of patents filed in biotechnology and pharmaceuticals (EPO, 2018)

73 universities

(Université Paris-Saclay ranks 14 in Shanghai's Academic ranking of World Universities 2020)

13 Nobel prizes in Medecine (French Healthcare 2019)

52% of the healthtech companies created in France are spinout of public or academic research institutions (France Biotech 2019)

800 M€ R&D tax credit per year for the health industry in France

1st European country in numbers of clinical trials (Panorama France Healthtech 2019)

DEVELOPING BIOPRODUCTION BY PROMOTING DISRUPTIVE TECHNOLOGY

“The production of innovative biological therapies is a major competitive stake but is also essential to guarantee better patient access to tomorrow's innovations and to guarantee our health independence.”
(Rapport Conseil National de l'Industrie, 2019)

32 bioproduction sites in France (with 3 international companies) representing 8,463 jobs

France aims to :

- attract and develop disruptive technologies
- lower its bioproduction cost
- create a network of start-ups and SMEs
- strengthen its training offer in new technologies

6 action plans (including bioproduction) led by the **CSF-ITS**
(Strategic Committee for the Health Industries
and Technologies Sector) among which :

- Artificial Intelligence and Health
- Antibioresistance
- Employment and training

DIGITAL HEALTH IS A GOVERNMENT PRIORITY

**A € 3Bn market with a potential of up to 16 to 22 Bn per year
(The Montaigne Institute, 2019) driven by :**

- the aging of its population. € 11 Bn for the long-term care for the elderly (+ 2% per year in recent years);
- the development of chronic diseases
- the need to optimize the patient journey. Transporting patients (€ 5 Bn/year) and nursing care in urban areas (€ 8 Bn/year) are both increasing by around 4%/year while consumption of hospital resources (€ 72 Bn/year) is growing by 2%/year. (*rapport Potier 2019*)

THE FRENCH GOVERNMENT LAUNCHED SEVERAL INITIATIVES:

Health Data Hub

simplified access to health data for all professionals and research teams

Ma Santé 2022

fostering the transition to digital health, with tools such as shared medical records

PIA4

(Investments for the Future Programme)
specific investments in digital health

“Engagé pour la e-santé”

a agreement chart signed by 235 healthtech companies

Over **200** Digital health start-ups employing **30,000** people in France (*French Healthcare 2019*)
