**Take part in business meetings organized by Business France and its regional partners in the host cities of the French team's home matches in the 2024 Six Nations Championship. Meet with foreign investors or foreign business leaders to discover new economic opportunities in France.**

From February 2 to March 16, 2024, France will host three matches of the Six Nations Championship, in Marseille, Lille and Lyon. To mark the occasion, Business France and its regional partners will organize attractiveness sequences with foreign investors on the sidelines of the French team's home matches against Ireland, Italy and England.

These "Business France Rugby Clubs" will enable serious discussions to be held between regional key players, French businesses and foreign investors, with a view to generating business opportunities. These meetings will serve as an opportunity to showcase the French economic and regulatory environment. They can take the form of personalized pathways with field visits to French economic and technology showcases, particularly in relation to the "France 2030" plan.

We would be delighted to invite you to one of our "Business France Rugby Clubs".

## THREE HOST CITIES
